### **PURPOSE OF ENTERING IN E – WASTE.**

Putting the onus of re-cycling of electronic wastes (e-waste) on the producers, the Ministry of Environment and Forest (MoEF) has for the first time notified e-waste management rules.

The e-waste (management and handling) Rules, 2011 would recognize the producer’s liability for recycling and reducing e-waste in the country. The rules will come into effect from May1, 2012 for following items:-

Sr. No.	Categories of electrical and electronic equipment
i.	<b>Information technology and telecommunication equipment :</b> Centralised data processing: Mainframes, Minicomputers Personal computing: Personal Computers (Central Processing Unit with input and output devices) Laptop Computers(Central Processing Unit with input and output devices) Notebook Computers Notepad Computers Printers including cartridges Copying equipment Electrical and electronic typewriters User terminals and systems Facsimile Telex Telephones Pay telephones Cordless telephones Cellular telephones Answering systems
ii.	<b>Consumer electrical and electronics:</b> Television sets (including sets based on (Liquid Crystal Display and Light Emitting Diode technology), Refrigerator, Washing Machine, Air-conditioners excluding centralised air conditioning plants

**Organizations having any of the above electronics waste must have to sell it to any recycler according to e-waste (management and handling) rules, 2011. Now to serve you better in this field along with Pollution Control Consultancy we have established Shukla E-Waste Processor.**

Now M/S S. E. P. is Estd. For Collecting, Segration, Dismantling, Packing, Recycling and Reuse of Waste Electrical and Equipment (WEEE) in eco friendly way. The main objective of M/S S. E. P. is to create an opportunity to transfer waste into socially and industrially beneficial raw materials like valuable metals, plastics and glass using simple, cost efficient, home grown, environmental friendly technologies suitable to Indian conditions.

M/S S. E. P. is an Electronic Waste Recycling Company approved by State Pollution Control Board as e-waste recyclers.

The Company's goal is simply to create a world-class recycling services and solutions, which helps our mother earth to harvest maximum resource recovery. S. E. P's has also been based on a resourceful combination of technological innovation, professionalism and commitment to excellence to all their clients.

M/S S. E. P. can also provide Electronic – Waste collection and disposal services to its customers who are IT majors, Public Sectors, NGO's etc. The ultimate aim is to help clients ensure that their business is creating a cost effective model for complying with both their legal and social responsibilities to the environment. We also offer services for recycling of mixed plastic and mixed metal waste into commercially viable products, and recovery of electronic equipment and components like ICs and printers, circuit boards, monitors, TFTs, and other computer peripherals besides having future plan of 100% EOU units and recovery of precious metals from e waste. Under the supervision of our experts, waste and scrap of electronic and electrical industry is treated, disposed and recycled at our factory unit.
